9 Steps to Prosperous Thinking

By Judi Moreo

1. Get quiet, meditate, and make a mental picture of the highest degree of financial success that you wish to achieve.
2. Build a mental picture of what you really want.
3. Keep your inner plans to yourself.
4. Proceed to take steps toward your mental picture of financial independence.
5. Do NOT become anxious, excited, or emotionally upset if you don't immediately get the results you want.
6. Persevere in making your mental image of financial independence come forth, in whatever ways are revealed to you.
7. Realize your dreams of financial independence have already come true on the mental plane, by the time you desire them or become aware of them.
8. Remind yourself often that if others have attained financial independence, so can you.
9. Remember, every good thing already exists in the realm of substance. Through high expectancy, mental images, prosperous thought and action, you can bring forth whatever you wish.

We encourage you to forward this message to friends or colleagues who want to be the best they can be and enjoy much success in their lives!
